Pouched Topping Warmer Can2Pouch FSP Conversion Kit

SPECIFICATION SHEET

FAST FACTS

Better for your budget and the environment, keep your current FSP warmer as there's no need to buy a new one. Simply convert from #10 cans to pouched toppings with a Can2Pouch Conversion Kit that attaches to a 48 oz pouch with center fitment.

APPLICATIONS

- Operations currently using #10 topping cans looking to transition to pouches
- Keep food costs of expensive ingredients in check by dispensing more servings from a pouch than from a can

DETAILS

- Heavy duty anodized aluminum pouch support allows for operating without a waterbath which prevents the risk of vapor damage to toppings and eliminates hot spots by providing accurate, even heat
- Pouches deliver up to 98% product evacuation & 97% less packaging waste than cans
- A pouch and fitment create a sealed, sanitary system that remains clean as topping is contained in the pouch decreasing cleaning time
- Replace FSP valve body and o-ring with the new valve body and o-ring provided in the conversion kit and place pouch support in the unit

CAN2POUCH FSP CONVERSION KIT MODEL: FSP
